

SAFETY DATA SHEET

1. Identification

Product identifier Earthstone Grill Stone & EarthStone Multi-Purpose Stone

Other means of identification Not available.

Recommended use Cleaner

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Telephone

E-mail

Company name Iron Out dba Summit Brands

Address 6714 Pointe Inverness Way, Suite 200

Fort Wayne, IN 46804-7935

United States 260-483-2519 Not available.

Emergency phone number 1-800-424-9300 (CHEMTREC)

Supplier See above.

2. Hazard identification

Physical hazards Not classified.
Health hazards Not classified.
Environmental hazards Not classified.
WHMIS 2015 defined hazards Not classified

Label elements

Hazard symbol None.
Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

None known

Disposal Dispose of waste and residues in accordance with local authority requirements.

WHMIS 2015: Health Hazard(s)

not otherwise classified

(HHNOC)

WHMIS 2015: Physical Hazard(s) not otherwise classified (PHNOC)

None known

Hazard(s) not otherwise

classified (HNOC)

None known.

Supplemental informationThe components listed below are inextricably bound and not biologically available.

US:

As per Appendix A to OSHA 1910.1200 - Health Hazard Criteria, the effect of a chemical on biological systems is influenced, by the physico-chemical properties of the substance and/or ingredients of the mixture and the way in which ingredient substances are biologically available. A chemical need not be classified when it can be shown by conclusive experimental data from scientifically validated test methods that the chemical is not biologically available.

CANADA

As per section 2.9 of the Hazardous Products Regulations, if it can be shown by conclusive experimental data from scientifically validated methods that the mixture, material or substance is not biologically available, it need not be classified in any health hazard.

3. Composition/Information on ingredients

Mixture

#32304 Page: 1 of 8 Issue date 20-October-2023

Chemical manie	Common name and Synonyms	CAS Hullibel	
Glass, oxide, chemicals		65997-17-3	80-100
Limestone		1317-65-3	1-5
All concentrations are in percent by	y weight unless ingredient is a gas. Gas concer	ntrations are in percent by vo	lume.
Composition comments	US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.		
	CANADA GHS: The exact percentage (conce secret.	ntration) of composition has	been withheld as a trade
	4. First-aid measures		
Inhalation	Not a normal route of harmful exposure. If syr persist, obtain medical attention.	mptoms develop move victim	to fresh air. If symptoms
Skin contact	Flush with cool water. Wash with soap and wa	ater. Obtain medical attentior	ı if irritation persists.
Eye contact	Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medicattention if irritation persists.		flushing. Obtain medical
Ingestion		induce vomiting. If vomiting occurs naturally, have victim lean forward to ion. Never give anything by mouth if victim is unconscious or is convulsing. tion.	
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary	y irritation.	
Indication of immediate medical attention and special treatment needed	Symptoms may be delayed. Treat patient sym	nptomatically.	
General information	If you feel unwell, seek medical advice (show sheet to the doctor in attendance. Avoid contains		
	5. Fire-fighting measure	es	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carb	on dioxide.	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	During fire, gases hazardous to health may be	e formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full pro-	rotective clothing must be wo	rn in case of fire.
Fire-fighting equipment/instructions	Use water spray to cool unopened containers		
Specific methods	Use standard firefighting procedures and con-	sider the hazards of other inv	olved materials.
General fire hazards	No unusual fire or explosion hazards noted.		
Hazardous combustion products	May include and are not limited to: Oxides of	carbon.	
	6. Accidental release meas	sures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. For personnel	onal protection, see section 8	of the SDS.
Methods and materials for containment and cleaning up	Pick up and discard.		
Environmental precautions	Do not contaminate water.		
	7. Handling and storag	е	
Precautions for safe handling	Avoid prolonged exposure. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. When using do not eat or drink.		
Conditions for safe storage, including any incompatibilities	Keep out of reach of children.

Exposure guidelinesThe components listed above are inextricably bound and not biologically available.

5 mg/m3

10 mg/m3

Respirable.

Total

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Not normally required when used as directed. Eve/face protection

Skin protection

Not normally required when used as directed. Protective gloves are recommended for prolonged Hand protection

or repeated exposure.

Other Wear appropriate chemical resistant clothing. As required by employer code.

Respiratory protection Not normally required if good ventilation is maintained. Where exposure guideline levels may be

exceeded, use an approved NIOSH respirator.

Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's respirator standard (29 CFR 1910.134),

CAN/CSA-Z94.4 and ANSI's standard for respiratory protection (Z88.2).

Thermal hazards Not applicable.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. When using do not eat or drink.

10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Chemical stability Material is stable under normal conditions.

Conditions to avoid Do not mix with other chemicals.

Incompatible materials

Hazardous decomposition

products

May include and are not limited to: Oxides of carbon.

11. Toxicological information

Eye, Skin contact, Inhalation, Ingestion. Routes of exposure

Information on likely routes of exposure

Ingestion May cause stomach distress, nausea or vomiting.

Inhalation Prolonged inhalation may be harmful.

Skin contact Prolonged or repeated contact may dry skin and cause irritation.

Eye contact Direct contact with eyes may cause temporary irritation. Symptoms related to the Direct contact with eyes may cause temporary irritation.

Strong oxidising agents.

Respiratory or skin sensitisation

Canada - Alberta OELs: Irritant

Glass, oxide, chemicals (CAS 65997-17-3) Irritant Limestone (CAS 1317-65-3) Irritant

Respiratory sensitisation

Not a respiratory sensitizer.

Skin sensitisation This product is not expected to cause skin sensitisation.

Mutagenicity No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity The components listed below are inextricably bound and not biologically available.

As per section 2.9 of the Hazardous Products Regulations, if it can be shown by conclusive experimental data from scientifically validated methods that the mixture, material or substance is

not biologically available, it need not be classified in any health hazard.

As per Appendix A to OSHA 1910.1200 - Health Hazard Criteria, the effect of a chemical on biological systems is influenced, by the physico-chemical properties of the substance and/or ingredients of the mixture and the way in which ingredient substances are biologically available. A chemical need not be classified when it can be shown by conclusive experimental data from

scientifically validated test methods that the chemical is not biologically available.

ACGIH Carcinogens

Glass, oxide, chemicals (CAS 65997-17-3)

A2 Suspected human carcinogen.

Canada - Manitoba OELs: carcinogenicity

Glass, oxide, chemicals (CAS 65997-17-3)

Suspected human carcinogen.

Canada - Quebec OELs: Carcinogen category

Glass, oxide, chemicals (CAS 65997-17-3)

Detected carcinogenic effect in animals.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1052)

Not listed.

Reproductive toxicityThis product is not expected to cause reproductive or developmental effects.

Teratogenicity Not available.

Specific target organ toxicity - Not classified.

single exposure

....

Specific target organ toxicity -

repeated exposure

Not classified.

Aspiration hazard Not an aspiration hazard.

Chronic effects Not applicable.

12. Ecological information

Ecotoxicity See below

Persistence and degradability No data is available on the degradability of any ingredients in the mixture.

Bioaccumulative potentialNo data available.Mobility in soilNo data available.Mobility in generalNot available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal instructionsCollect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations
Hazardous waste code

Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Contaminated packaging

Since emptied containers may retain product residue, follow label warnings even after container is

emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

14. Transport information

Transport of Dangerous Goods (TDG) Proof of Classification

Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.

#32304 Page: 6 of 8 Issue date 20-October-2023

U.S. Department of Transportation (DOT)

Not regulated as dangerous goods.

Transportation of Dangerous Goods (TDG - Canada)

Not regulated as dangerous goods.
